

AP CSP | My Create Work Journal

C01 | Choose & Begin | Planned dedicated classroom time: 90 min

Choose your own program purpose and begin developing your official task in a familiar programming environment.

Date: _____ Actual classroom minutes: _____ Outside-class minutes: _____

Suggested window	Work focus
0-20 min	Choose your focus
20-65 min	Start your own program
65-90 min	Run, inspect and save

Adapt the sequence to your progress. Record actual task time; outside-class work does not replace the classroom time your school must provide.

1. My work and decisions today

2. Saved version / process evidence / acknowledgments to maintain

3. My next step or a technical barrier to report

Private working notes only. This journal is not a PPR, an official submission, or proof that the school has met the nine-hour requirement. Keep formal work private.

AP CSP | My Create Work Journal

C02 | Build Data & Functionality | Planned dedicated classroom time: 90 min

Continue your own implementation, developing the data and behavior needed for the purpose you chose.

Date: _____ Actual classroom minutes: _____ Outside-class minutes: _____

Suggested window	Work focus
0-15 min	Resume from your evidence
15-65 min	Develop and connect
65-90 min	Review your own progress

Adapt the sequence to your progress. Record actual task time; outside-class work does not replace the classroom time your school must provide.

1. My work and decisions today

2. Saved version / process evidence / acknowledgments to maintain

3. My next step or a technical barrier to report

Private working notes only. This journal is not a PPR, an official submission, or proof that the school has met the nine-hour requirement. Keep formal work private.

AP CSP | My Create Work Journal

C03 | Develop & Integrate | Planned dedicated classroom time: 90 min

Develop and integrate your own procedure and algorithm while checking their connection to your program's purpose.

Date: _____ Actual classroom minutes: _____ Outside-class minutes: _____

Suggested window	Work focus
0-20 min	Inspect your design
20-65 min	Implement and integrate
65-90 min	Self-check the running version

Adapt the sequence to your progress. Record actual task time; outside-class work does not replace the classroom time your school must provide.

1. My work and decisions today

2. Saved version / process evidence / acknowledgments to maintain

3. My next step or a technical barrier to report

Private working notes only. This journal is not a PPR, an official submission, or proof that the school has met the nine-hour requirement. Keep formal work private.

AP CSP | My Create Work Journal

C04 | Test & Refine | Planned dedicated classroom time: 90 min

Use your own testing and observations to refine your program and preserve the version you intend to demonstrate.

Date: _____ Actual classroom minutes: _____ Outside-class minutes: _____

Suggested window	Work focus
0-20 min	Choose your own checks
20-65 min	Test, revise and retest
65-90 min	Preserve a checked version

Adapt the sequence to your progress. Record actual task time; outside-class work does not replace the classroom time your school must provide.

1. My work and decisions today

2. Saved version / process evidence / acknowledgments to maintain

3. My next step or a technical barrier to report

Private working notes only. This journal is not a PPR, an official submission, or proof that the school has met the nine-hour requirement. Keep formal work private.

AP CSP | My Create Work Journal

C05 | Create Your Video & PPR | Planned dedicated classroom time: 90 min

Individually create the video and Personalized Project Reference from the program developed during your official task.

Date: _____ Actual classroom minutes: _____ Outside-class minutes: _____

Suggested window	Work focus
0-30 min	Record your own demonstration
30-65 min	Create your own reference
65-90 min	Inspect and save your own artifacts

Adapt the sequence to your progress. Record actual task time; outside-class work does not replace the classroom time your school must provide.

1. My work and decisions today

2. Saved version / process evidence / acknowledgments to maintain

3. My next step or a technical barrier to report

Private working notes only. This journal is not a PPR, an official submission, or proof that the school has met the nine-hour requirement. Keep formal work private.

AP CSP | My Create Work Journal

C06 | Check & Submit | Planned dedicated classroom time: 90 min

Individually inspect the three submission components, complete the official submission steps and preserve a record of their status.

Date: _____ Actual classroom minutes: _____ Outside-class minutes: _____

Suggested window	Work focus
0-30 min	Inspect the three components
30-60 min	Upload and review the entries
60-90 min	Submit final and confirm status

Adapt the sequence to your progress. Record actual task time; outside-class work does not replace the classroom time your school must provide.

1. My work and decisions today

2. Saved version / process evidence / acknowledgments to maintain

3. My next step or a technical barrier to report

Private working notes only. This journal is not a PPR, an official submission, or proof that the school has met the nine-hour requirement. Keep formal work private.
