

AP CSP | My Review Record

Part A | MCQ error analysis and a specific next step

Date: _____ Set: _____ Correct / attempted: _____

Record the source: original diagnostic / original algorithms / official CED samples / original mixed. Keep official sample numbers distinct from Q01-Q40.

Question / source	My error and the evidence I missed	Next lesson / retry date

Possible causes: concept gap; variable/list trace; missed condition; incomplete Select TWO; unsupported inference; guess. Identify the cause, not just the answer letter.

One corrected explanation in my own words

A fresh case to try tomorrow, and how I will know my reasoning improved

Part B | Official written-response review after the timed attempt

Year / Set: _____ Practice date: _____

Use your own suitable program and PPR. Once the formal Create task has begun, teacher feedback on either formal or practice written responses must wait until all three components are finalized. Keep program evidence private.

For 2026, review the four WR rows in the official Scoring Guidelines. Video and program requirements are separate rows. This sheet does not measure the full Create score.

Prompt	What this prompt asks / my specific code evidence / explanation gap
1	
2(a)	
2(b)	
2(c)	

One writing target for the next complete 60-minute set

Use the matching year and Set scoring guide after answering. A partial bullet is not an invented official half point. Read all conditions in the relevant scoring row.
